

MotoCarma

The Fastest Path to a License

Practicing as part of a Graduated Driver Licensing program is the key to developing safe teens behind the wheel. Helping teens early, before bad habits form, is critical.

Mobile apps can help by providing a new, modern way to record hours toward a license. With the power of today's smartphones, the three major on-road risks of distractions, intersections and speeding can be recorded and reduced.

MotoCarma

Safe

Stop distractions, speeding tailgating, red light running and more.

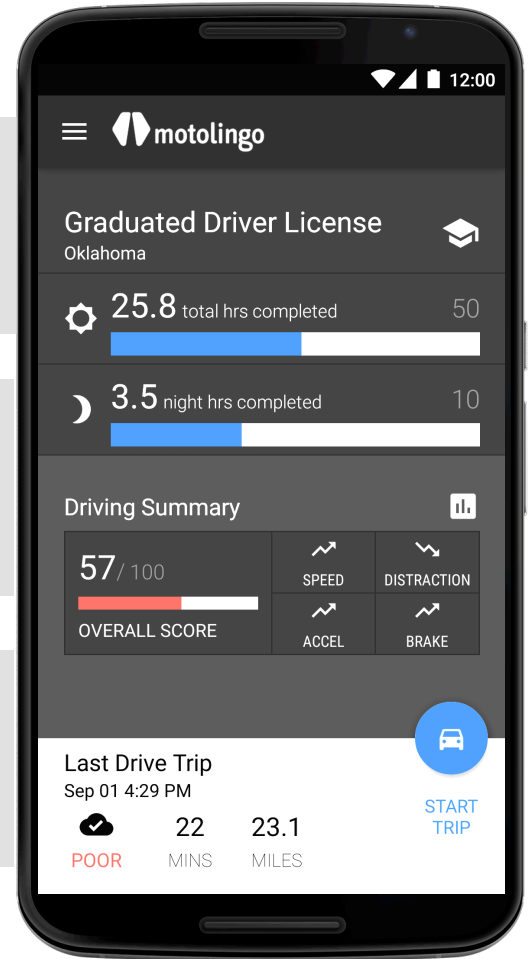

Easy

Record hours driven toward a license like recording a video. Get tips on how to improve.

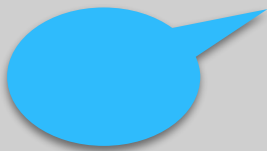

Affordable

Free trip records, acceleration, braking and distraction data. Small monthly subscription for speeding.

¹Requires In-App Purchase

"This level of monitoring and coaching will result in better trained and more experienced novice drivers."

Kevin Borup, JDA, MPA
Associate Director, Injury Prevention Center
Children's Connecticut Medical Center
